HORROR FILMS AND CHILDREN.

Third Certificate Urgently Needed.

Protest against "Frankenstein," the Horror Film.

In May next there will be released for exhibition throughout the country a film described by one film man as **"a nightmare of entertainment,"** and **"the most horrible thing he has ever seen on the screen."** It is entitled "Frankenstein" and the Order of the Child strongly protests against its exhibition to children under any circumstances.

You can help us, if you will, by organising a protest meeting locally or by writing to the local authorities, registering your protest, and asking that special steps should be taken to prevent children from being allowed to witness this film when it is shown in your neighbourhood. Please inform us of any action contemplated or taken.

This is a type of film for which a Third Certificate is needed—**Adults Only**—and meaning Adults only.

As there are at present only two certificates, the "A" and the "U," this horrible film has been released under the "A" certification, which means that children may witness it if accompanied by parent or adult guardian. In the case of terrifying films of this kind the exclusion of children should be compulsory.

For further information and advice write to the Secretary, The Order of the Child, 25, Victoria Street, London, S.W.1.

No time should be lost if the effort is to meet with success.
